Suspended fixture:

- 1 Attached to ceiling with adhesive:**
- Function: Suspend your displays on any wall or ceiling with our adhesive fixture kits
 - Available with profile(s): square, round, rectangle
 - Tips: make sure the surface is clean. Place the square adhesive. Place the display on the hooks and then adjust their height with the help of a level.

- 2 Cascading attachments:**
- Function: Superimpose multiple suspended displays
 - Available with profile(s): square, round, rectangle
 - Tips: before installing, prepare the hooks according to the length of the necessary strings. Begin by placing the higher display, then add the other displays and hooks as seen in the image here. Use a leveling tool.

- 3 Fixation sur plafonds suspendus:**
- Function: : An ingenious tool for fixing your displays on most ceiling rails. Simple adjustments
 - Available with profile(s): square, round, rectangle
 - Tips: Once the frame is assembled, place a suction cup in each corner with help from the plastic pins. Place the display on your window (make sure it is clean and dry). Use a leveling tool.
